## Your legislators need to hear from you about the importance of investing in quality early childhood education.

Come tell your story about:

- the **CHILDREN** and the difference that a quality early education program makes in their lives,
- the **TEACHERS** and the critical role their skills and expertise play in a quality program,
- the on-going **CHALLENGES** (subsidy waiting lists, health insurance, staff turnover, unmet needs of Keystone STARS and Pre-K Counts),
- the **SUCCESSES** that investing in quality produces (early brain development, school readiness, family economic success and savings in future social service costs).
